ProFinish Series

A wall of Double Hung and Quarter-round windows open up this home to allow natural light to flood in.

The right windows.

The right window company.

Great windows start with a great window company. That's why you can take comfort in knowing Simonton® has been a trusted brand since 1946, providing more than 65 years of proven quality. We were here yesterday and will be here tomorrow, so when we say we offer a lifetime commitment of service and support, we mean it. Peace of mind is standard with every Simonton ProFinish® window and door.

Expansive ProFinish Master Picture windows lend a contemporary appearance to this great room.

This ProFinish Master Picture and Geometric window configuration creates a grand entrance.

A three-panel, driftwood Contractor Patio Door with Colonial grids brings the outside in and easily glides on corrosion-resistant rollers.

The Simonton ProFinish Difference

Contractor Double Hung windows with Colonial grids complement the architectural style of the home, while the integral J-channel aides installation and provides a flawless finish.

Why Simonton ProFinish for your new home?

Easy to live with.

At Simonton, we know you have better things to do than sanding, painting and staining your windows. That's why ProFinish® windows are constructed of premium vinyl, so they require virtually no maintenance to look beautiful for years.

Easy to operate.

ProFinish windows have unique features that make them very easy to operate. Double Hung windows open and close with ease and can be cleaned from inside your home. Casement windows crank open effortlessly to a full 90 degrees for fresh air and easy cleaning. Window and door handles are ergonomically designed to be easy to grasp.

Comforting energy efficiency.

Available ProSolar® Low E glass with Argon gas provides excellent energy efficiency to help keep your home comfortable and inviting season after season, year after year. ProSolar also helps lower heating and cooling costs.

Crafted to endure.

Not all windows are created equal. ProFinish windows and doors are crafted to exacting standards to ensure a lifetime of reliable, worry-free performance.

A great warranty. Great peace of mind.

ProFinish windows and doors are covered by a Lifetime Limited Warranty on vinyl and a 20-year warranty on hardware, screens and glass.

Safety and security.

The optional Window Opening Control Device (WOCD) is a self-activating vent latch that limits the extent a window can be opened. It helps increase safety against accidental falls, while allowing quick egress in the event of an emergency.

ProFinish Geometric-Top Single Hung windows provide geometric style that has an operable sash for ventilation.

This new home has a variety of ProFinish Master Double Hung configurations.

The Power to Save Energy

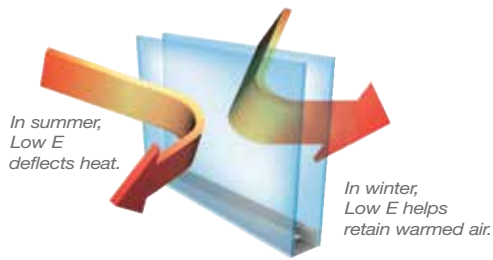

ProFinish Contractor Picture windows with Colonial grids complement this charming bungalow perfectly.

At Simonton, we understand saving energy is more important than ever. That's why ProFinish® windows and doors offer unique features for superior thermal performance to help lower heating and cooling costs and keep your home comfortable all year long.

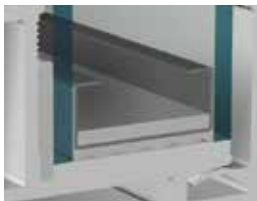

Low E Glass

ProSolar® Low E Glass, available on all ProFinish products, helps retain cooled air in summer and warm air in winter. Argon gas, used to replace air between the glass panes, also helps increase insulation.

This ProFinish Builder Single Hung Geometric configuration is ready for the afternoon sun with optional ProSolar Low E Glass with Argon gas,

Advanced Spacer Systems

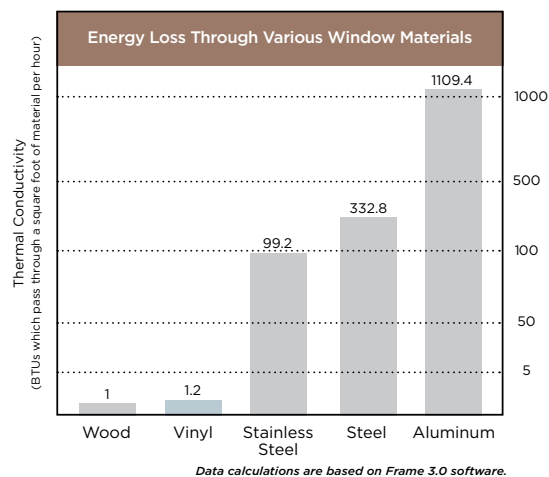

The Intercept® Spacer System, standard on ProFinish windows and doors, features a unique U-channel design that minimizes condensation and keeps glass surfaces warmer for increased efficiency and comfort. The U-shape design flexes and contracts, helping to reduce seal failure in the insulating glass unit.

For even greater thermal performance and dependability, the optional Supercept™ spacer combines a U-channel design with the strength of a stainless steel alloy.

Premium Vinyl Construction

Vinyl is an excellent insulator and delivers a very low temperature transfer helping keep you comfortable all year long. Its thermal properties are far superior to aluminum, steel and stainless steel windows and doors.

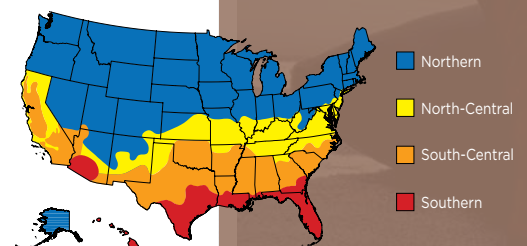

The ProFinish Master and Contractor series include a Colonial Casement that offers the look of a Double Hung window with the energy efficiency, ease of operation and ventilation of a Casement window.

Choosing the right glass package is as easy as knowing where you live.

Simonton has developed ENERGY STAR® glass packages for each climate zone. Select the glass package custom-made for your region, and you'll be assured of year-round thermal performance.

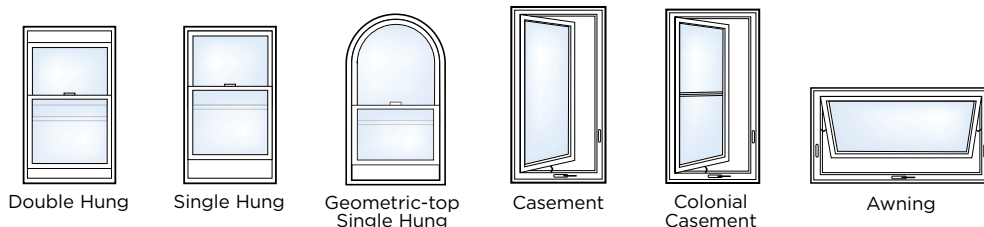

Step **1** Select Your Operating Style

Inviting sunlight, comforting energy efficiency and timeless beauty are hallmarks of these ProFinish Contractor Single Hung windows

MASTER | High performance series

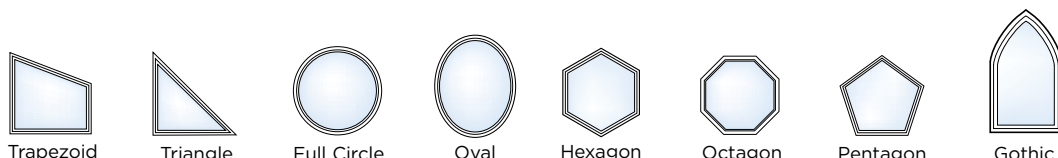

All ProFinish Master windows and doors deliver superior air, water and structural ratings—receiving a high performance grade of R-50. Energy-efficient glass options add to the advanced performance of this series.

ProFinish Master Double Hung windows are mulled together and crowned by a Half-round Geometric.

A wall of ProFinish Master Picture windows provide a contemporary appearance.

This unique configuration features a ProFinish Contractor Single Hung flanked by two Picture windows and crowned by an Eyebrow Geometric with a Double Sunburst grid pattern.

Step **3** Choose Your Glass & Grid Options

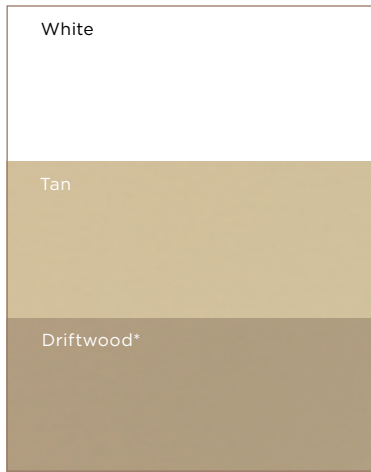

ProFinish Master Double Hung and Picture windows with Colonial grids provide natural light to this staircase.

We make the windows. You make them yours.

Now that you've chosen the perfect windows, make them as unique as your own signature with distinctive glass, grid and color options. The right grid pattern can really accentuate your home's architectural style. Choose flat grids for a streamlined appearance, sculptured grids for a rich, detailed look or brass grids for a gleaming touch.
